

Getting Started Guide

What are **VideosToGo™**?

A set of short video tutorials showing you how to use your BlackBerry that you watch right on your BlackBerry.

Can I watch these on my computer?

Yes. You have the **VideosNow™** product from the download or CD that came with these videos.

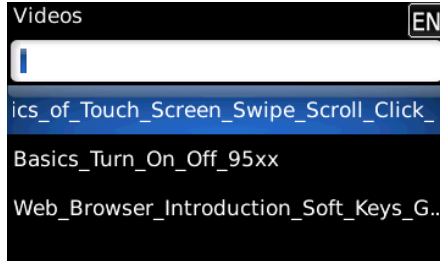

How to Watch the Videos:

Before you get started, make sure the Media Card which contains the videos has been inserted into your BlackBerry.

1. On your BlackBerry, press and click on the

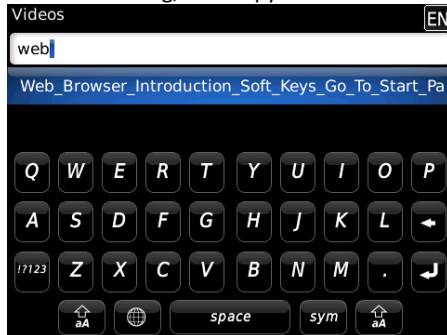

2. Press and click on "Videos"
3. Just scroll to a title and click on it to watch it.

Finding a Specific Video:

1. After you clicked on the "Media" icon and "Videos"...
2. Press and click in the FIND field at the top and type a keyword like "email," "**web**," "troubleshooting," or "copy."

3. Now, the BlackBerry will 'FIND' and show you a list of only videos whose titles match your keyword or keywords.
4. Click on the selected video to watch it.

Adjusting Volume:

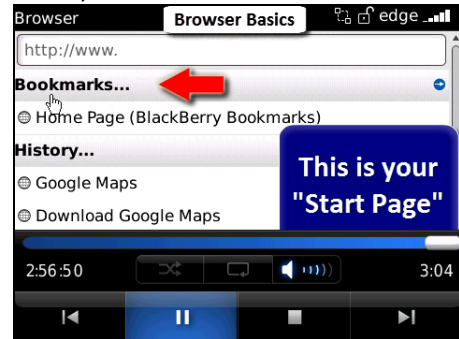

Use the dedicated volume up/down keys on the upper right side of your BlackBerry.

Pausing a Video to Try What you Learn:

1. While watching any video, press the Red Phone key.
2. This will instantly jump you back to the "Home Screen" with icons.
3. Now, just start any icon and try out what you learned.
4. To get back to the video, just press the Menu Key and select "Now Playing..." near the top.
5. Your video will be paused where you left off... press the PLAY button to start playing the video again.

How to Restart the Video from the Beginning:

1. While the video is playing, if you are in 'Full Screen' mode, tap the screen to see the control soft keys at the bottom.

2. Press and click the square ("STOP") soft key to start the video over at the beginning.
3. Press and click the bottom left soft key to go to the previous video, press and click the bottom right soft key to go to the next video.
